

## Voluntary Notified Child-minders

A Voluntary Notified Childminder is a person who notifies their local County Childcare Committee of their intention to operate a Childminding Business in their own home. Each Voluntary Notified Childminder will have received a support visit from the County Childcare Committee Childminding Advisory Worker and will have participated in childcare training including First Aid and Child Protection. A voluntary Notified Childminder will also have Garda Vetting and appropriate Insurance Cover. In choosing a Voluntary Notified Child-minder a parent can feel confident that the practitioner provides a safe and stimulating setting for their Child/Children and that this person has the necessary skills and knowledge to operate this service.
